

## Referral Fees for You

If you recommend The Tools to another organization and they subscribe to our service, a \$300 referral bonus is applied against your Tools invoice. You will also receive \$150 every additional year that you and that organization renew your subscriptions.

You do not need to do a demo or close a deal. All you do is talk to the other potential hosts about the Tools and encourage them to talk with us. You give us the names and contact information of these prospects. We'll do the rest.

If you are setting up a Small Communities partnership, you do not get a referral fee for your partner. However, if you refer other communities, you are eligible for the referral fee.
