

Sponsors

We encourage clients to seek sponsors for their Tools site. You may have unlimited sponsors and keep any revenue. We do not charge a setup fee for this.

Usually, we put a rotating sponsor box in the right panel of every page. The width is between 200px and 300px.

You send us the sponsor logos and the web address for a link. We will resize them to fit within your Tools.

Upon your approval, we will also modify text or place additional resources within the tools to highlight your sponsor(s). We do not charge for these change.

If you want a different location or have a special request, please let us know. We are happy to help.
